

Drones – the next frontier in **real estate marketing**

Unmanned aerial vehicle (UAV) technology has taken real estate agents straight to the skies.

Photos and videos taken with drones provide a bird's eye view of any property, giving your prospective buyers the chance to see backyards, landscaping, pools and even entire neighborhoods in one aerial image or video. The result? Buyers will stay on your listing longer and your showings will increase.

When you partner with Tri-City Drone Services, the sky's the limit!

HOW WE CAN HELP

Leveraging commercial-grade unmanned aerial vehicle (UAV) technology without having to own and operate a UAV yourself has never been easier. We'll work together to learn about your goals and identify the best and most cost-effective UAV solution for your agency.

- Impress homebuyers with the wow-factor of drone footage.
- Gain a competitive edge over other agents.
- Showcase your property with a new perspective.
- Maximize your showings.

OUR FLEET

With our fleet of state-of-the-art UAVs, we are able to capture an array of high-quality data and images. Plus, all our pilots are FAA certified, bonded and insured and meet all new government drone regulations.

Find out how you can get **CONFIDENCE DELIVERED®** on your next project.
