When it comes to fire safety, trust matters.

Tri-City Fire Protection

The safety of your new construction or existing building is largely impacted by the fire sprinkler systems you have in place. Something this important can't be left to chance. It's a job that simply must be done right.

When you work with Tri-City Fire Protection, you can rest easy knowing you've got over 100 combined years of expertise working on your behalf to ensure your fire suppression system is installed on time, on budget and on top of the latest safety standards and regulations. Our team of experts will provide service from the start and will follow it up with monitoring and 24/7 emergency service.

Tri-City Fire Protection

Fired up by systems that put fires out.

Our team of experts engineer and install the perfect fire suppression solution for your needs, no matter the challenge. We're proud to deliver top-notch customer service every step of the way during your project by hiring the best talent to work on your jobs. That's why we utilize Local 699 Union Fire Sprinkler Fitters when it comes time for installation in the field.
